Dissolved Ozone Monitor Q45H/64

Project: Supply of dissolved ozone monitors

Location: Turkey

<u>Project Summary</u>
The project involved the supply of dissolved ozone monitors for the control of sanitization of an ultrapure water loop at a pharmaceutical plant.

<u>Project Scope</u>
- Supply of monitors
- Calibration and commissioning
- Training

<u>Added Value/Benefits</u>
The ozone monitor is very easy to calibrate and does not require specialize equipment or a visit from the manufacturer.
Reduced calibration costs
Greater reliability of sanitization
